Electrical Energy Savings

Base Year	2005
Emissions	96,525,817 kWh
Savings	5,731,852 kWh
Reduction	5.9%
Project Description	Project Savings
Occupancy sensors and lighting/ HVAC upgrades at community centers (2006 & 2007)	54,651 kWh
Turbocore Chiller at Main Library (2007)	107,454 kWh
Savings by design at community center and two libraries (2009 & 2010)	240,056 kWh
PC Power Management Software (2010)	510,326 kWh
LED Lighting and exit signs at six parking garages (2011)	2,492,437 kWh
Equipment upgrade at Police station (2011)	24,419 kWh
VFDs at Community Center and Central Library (2011)	88,857 kWh
Greyhound Terminal– Saving by design (2011)	23,282 kWh
Equipment Upgrades (2012)	250,010 kWh
Fire station savings by design (2012)	19,833 kWh
Lighting Upgrades (2012& 2013)	1,920,527 kWh

About This Document

This document tracks and shares local agency best practice activities completed and counted as part of a city or county's participation in the climate change and sustainability recognition program, the Beacon Award: Local Leadership toward Solving Climate Change. The Beacon Award is a statewide program recognizing cities and counties that are working to reduce greenhouse gas emissions, save energy and adopt policies and programs that promote sustainability.

The Beacon Award is sponsored by the Institute for Local Government and the Statewide Energy Efficiency Collaborative. The Statewide Energy Efficiency Collaborative (SEEC) provides support to cities and counties to help them reduce greenhouse gas emissions and save energy. SEEC is an alliance between three statewide non-profit organizations and California's four Investor-Owned Utilities. It builds upon the unique resources, expertise and local agency relationships of each partner.

The Beacon Program is funded by California utility ratepayers and administered by Pacific Gas and Electric Company, San Diego Gas and Electric, Company, Southern California Edison and Southern California Gas Company under the auspices of the California Public Utilities Commission.
