

THE GOVERNMENT PERFORMANCE AND ACCOUNTABILITY ACT

WHAT'S IN THE PROPOSAL

STABLE, RESULTS-ORIENTED BUDGET PROCESS:

The proposal includes a set of fiscal tools to help state government focus on improving performance.

- **Performance-based budgeting:** The State would establish goals and performance measures for all programs.
- **Two-year budgets:** The Legislature would pass a budget consisting of a spending plan for the upcoming two fiscal years, making the budget more predictable and allocating time for reviewing and improving programs.
- **Pay-Go:** New program commitments would be required to include a source of funding (Pay-Go).
- **Transparency:** To increase transparency, all legislation, including the Budget Act, would have to be available to the public three days before final action. An updated fiscal forecast would be required three times per year.

ACCOUNTABILITY FOR RESULTS:

The proposal requires all local governments to be accountable for results by establishing goals and performance measures as part of their budgets and to publicly report progress.

ENCOURAGE COOPERATION AMONG LOCAL GOVERNMENTS:

The proposal gives counties – in partnership with cities, school districts and special districts – the authority and the incentives to develop a Community Strategic Action Plan. The objective of the Action Plan is to encourage local governments to work together to make the best use of available resources. Innovative leaders assert that to accelerate progress they also need more flexibility in state funding and rules.

- **Common goals:** Through a strategic plan, local governments would identify common goals – such as improving outcomes for youth – and how they would coordinate actions to cost-effectively achieve those goals. The plan also could identify state laws or regulations directly relating to the administration of a state program that prevent local governments from efficiently and effectively providing services. The plan would include a local method for achieving the state objective.
- **Counties, cities and schools:** The measure would authorize a county board of supervisors to voluntarily initiate the plan, and require them to invite other local governments to participate in the countywide planning effort. Cities, school districts, or special districts could petition a county to initiate a plan. A minimum number of cities and school districts would have to participate in the plan, which would be adopted by a majority vote of the governing board for each participating jurisdiction. Counties that complete an Action Plan would receive incentive funding from the State.
- **State review:** The plan would be approved locally, and if it identifies a state statute that prevents it from being implemented, the plan would be submitted to the Legislature. If, following a 60-day review period, the Legislature takes no action, the local plan would be deemed certified and the local agencies would have the legal flexibility requested in the plan. If an Action Plan only seeks relief from a state regulation that is within the authority of an executive branch agency, the department or agency responsible for the regulation would have a 60-day period to review the proposed local rule. Barring any objection, the local rule would take effect.
- **Accountability measures:** Counties that adopt a plan would be required to annually report results and evaluate the plan once every four years. The review would include an opportunity for public comment and an evaluation of the degree to which the plan has improved results in all parts of a community, including reducing community disparities. Counties would need to renew the plans with the State every four years.
- **Additional local authorities:** Once there is no state objection and the plans are effective, participating governments would have the following authorities, as described in the plan: Counties, cities, schools, and special districts could reallocate among themselves locally-levied sales and property taxes – except for the portion of the property tax already allocated to schools. General law counties would have the authority to contract with another participating local government to execute aspects of the plan.
- **Local incentive fund:** A new Performance and Accountability Trust Fund would direct a small portion of the existing state sales tax rate (0.035 percent) toward counties with Action Plans.

The Government Performance and Accountability Act

SECTION ONE. Findings and Declarations.

The People of the State of California hereby find and declare that government must be:

1. **Trustworthy.** California government has lost the confidence of its citizens and is not meeting the needs of Californians. Taxpayers are entitled to a higher return on their investment and the public deserves better results from government services.
2. **Accountable for Results.** To restore trust, government at all levels must be accountable for results. The people are entitled to know how tax dollars are being spent and how well government is performing. State and local government agencies must set measurable outcomes for all expenditures and regularly and publicly report progress toward those outcomes.
3. **Cost-Effective.** California must invest its scarce public resources wisely to be competitive in the global economy. Vital public services must therefore be delivered with increasing effectiveness and efficiency.
4. **Transparent.** It is essential that the public's business be public. Honesty and openness promote and preserve the integrity of democracy and the relationship between the people and their government.
5. **Focused on Results.** To improve results, public agencies need a clear and shared understanding of public purpose. With this measure, the people declare that the purpose of state and local governments is to promote a prosperous economy, a quality environment, and community equity. These purposes are advanced by achieving at least the following goals: increasing employment, improving education, decreasing poverty, decreasing crime, and improving health.
6. **Cooperative.** To make every dollar count, public agencies must work together to reduce bureaucracy, eliminate duplication, and resolve conflicts. They must integrate services and adopt strategies that have been proven to work and can make a difference in the lives of Californians.
7. **Closer to the People.** Many governmental services are best provided at the local level, where public officials know their communities and residents have access to elected officials. Local governments need the flexibility to tailor programs to the needs of their communities.

8. **Supportive of Regional Job Generation.** California is composed of regional economies. Many components of economic vitality are best addressed at the regional scale. The State is obliged to enable and encourage local governments to collaborate regionally to enhance the ability to attract capital investment into regional economies to generate well-paying jobs.
9. **Willing to Listen.** Public participation is essential to ensure a vibrant and responsive democracy and a responsive and accountable government. When government listens, more people are willing to take an active role in their communities and their government.
10. **Thrifty and Prudent.** State and local governments today spend hundreds of millions of dollars on budget processes that do not tell the public what is being accomplished. Those same funds can be better used to develop budgets that link dollars to goals and communicate progress toward those goals, which is a primary purpose of public budgets.

SECTION TWO. Purpose and Intent.

In enacting this measure, the People of the State of California intend to:

1. Improve results and accountability to taxpayers and the public by improving the budget process for the State and local governments with existing resources.
2. Make state government more efficient, effective, and transparent through a state budget process that does the following:
 - a. Focuses budget decisions on what programs are trying to accomplish and whether progress is being made.
 - b. Requires the development of a two-year budget and a review of every program at least once every five years to make sure money is well spent over time.
 - c. Requires major new programs and tax cuts to have clearly identified funding sources before they are enacted.
 - d. Requires legislation – including the Budget Act – to be public for three days before lawmakers can vote on it.
3. Move government closer to the people by enabling and encouraging local governments to work together to save money, improve results, and restore accountability to the public through the following:

- a. Focusing local government budget decisions on what programs are trying to accomplish and whether progress is being made.
 - b. Granting counties, cities, and schools the authority to develop, through a public process, a Community Strategic Action Plan for advancing community priorities that they cannot achieve by themselves.
 - c. Granting local governments that approve an Action Plan flexibility in how they spend state dollars to improve the outcomes of public programs.
 - d. Granting local governments that approve an Action Plan the ability to identify state statutes or regulations that impede progress and a process for crafting a local rule for achieving a state requirement.
 - e. Encouraging local governments to collaborate to achieve goals more effectively addressed at a regional scale.
 - f. Providing some state funds as an incentive to local governments to develop Action Plans.
 - g. Requiring local governments to report their progress annually and evaluate their efforts every four years as a condition of continued flexibility – thus restoring accountability of local elected officials to local voters and taxpayers.
4. Involve the people in identifying priorities, setting goals, establishing measurements of results, allocating resources in a budget, and monitoring progress.
 5. Implement the budget reforms herein using existing resources currently dedicated to the budget processes of the State and its political subdivisions without significant additional funds. Further, establish the Performance and Accountability Trust Fund from existing tax bases and revenues. No provision herein shall require an increase in any taxes or modification of any tax rate or base.

SECTION THREE. Section 8 of Article IV of the California Constitution is hereby amended to read:

SEC. 8. (a) At regular sessions no bill other than the budget bill may be heard or acted on by committee or either house until the 31st day after the bill is introduced unless the house dispenses with this requirement by rollcall vote entered in the journal, three fourths of the membership concurring.

(b) The Legislature may make no law except by statute and may enact no statute except by bill. No bill may be passed unless it is read by title on 3 days in each house except that the house may dispense with this requirement by rollcall vote entered in the journal, two thirds of the membership concurring. No bill other than a bill containing an urgency clause that is passed in a special session called by the Governor to address a state of emergency declared by the Governor arising out of a natural disaster or a terrorist attack may be passed until the bill with amendments has been in printed and distributed to the members and available to the public for at least 3 days. No bill may be passed unless, by rollcall vote entered in the journal, a majority of the membership of each house concurs.

(c) (1) Except as provided in paragraphs (2) and (3) of this subdivision, a statute enacted at a regular session shall go into effect on January 1 next following a 90-day period from the date of enactment of the statute and a statute enacted at a special session shall go into effect on the 91st day after adjournment of the special session at which the bill was passed.

(2) A statute, other than a statute establishing or changing boundaries of any legislative, congressional, or other election district, enacted by a bill passed by the Legislature on or before the date the Legislature adjourns for a joint recess to reconvene in the second calendar year of the biennium of the legislative session, and in the possession of the Governor after that date, shall go into effect on January 1 next following the enactment date of the statute unless, before January 1, a copy of a referendum petition affecting the statute is submitted to the Attorney General pursuant to subdivision (d) of Section 10 of Article II, in which event the statute shall go into effect on the 91st day after the enactment date unless the petition has been presented to the Secretary of State pursuant to subdivision (b) of Section 9 of Article II.

(3) Statutes calling elections, statutes providing for tax levies or appropriations for the usual current expenses of the State, and urgency statutes shall go into effect immediately upon their enactment.

(d) Urgency statutes are those necessary for immediate preservation of the public peace, health, or safety. A statement of facts constituting the necessity shall be set forth in one section of the bill. In each house the section and the bill shall be passed separately, each

by rollcall vote entered in the journal, two thirds of the membership concurring. An urgency statute may not create or abolish any office or change the salary, term, or duties of any office, or grant any franchise or special privilege, or create any vested right or interest.

SECTION FOUR. Section 9.5 is hereby added to Article IV of the California Constitution to read:

SEC. 9.5. A bill passed by the Legislature that (1) establishes a new state program, including a state-mandated local program described in Section 6 of Article XIII B, or a new agency, or expands the scope of such an existing state program or agency, the effect of which would, if funded, be a net increase in state costs in excess of twenty-five million dollars (\$25,000,000) in that fiscal year or in any succeeding fiscal year, or (2) reduces a state tax or other source of state revenue, the effect of which will be a net decrease in state revenue in excess of twenty-five million dollars (\$25,000,000) in that fiscal year or in any succeeding fiscal year, is void unless offsetting state program reductions or additional revenue, or a combination thereof, are provided in the bill or another bill in an amount that equals or exceeds the net increase in state costs or net decrease in state revenue. The twenty-five million dollar (\$25,000,000) threshold specified in this section shall be adjusted annually for inflation pursuant to the California Consumer Price Index.

SECTION FIVE. Section 10 of Article IV of the California Constitution is hereby amended to read:

SEC. 10. (a) Each bill passed by the Legislature shall be presented to the Governor. It becomes a statute if it is signed by the Governor. The Governor may veto it by returning it with any objections to the house of origin, which shall enter the objections in the journal and proceed to reconsider it. If each house then passes the bill by rollcall vote entered in the journal, two-thirds of the membership concurring, it becomes a statute.

(b) (1) Any bill, other than a bill which would establish or change boundaries of any legislative, congressional, or other election district, passed by the Legislature on or before the date the Legislature adjourns for a joint recess to reconvene in the second calendar year of the biennium of the legislative session, and in the possession of the Governor after that date, that is not returned within 30 days after that date becomes a statute.

(2) Any bill passed by the Legislature before June 30 of the second calendar year of the biennium of the legislative session and in the possession of the Governor on or after June 30 that is not returned on or before July 31 of that year becomes a statute. In addition, any bill passed by the Legislature before September 1 of the second calendar year of the biennium of the legislative session and in the possession of the Governor on or after

September 1 that is not returned on or before September 30 of that year becomes a statute.

(3) Any other bill presented to the Governor that is not returned within 12 days becomes a statute.

(4) If the Legislature by adjournment of a special session prevents the return of a bill with the veto message, the bill becomes a statute unless the Governor vetoes the bill within 12 days after it is presented by depositing it and the veto message in the office of the Secretary of State.

(5) If the 12th day of the period within which the Governor is required to perform an act pursuant to paragraph (3) or (4) of this subdivision is a Saturday, Sunday, or holiday, the period is extended to the next day that is not a Saturday, Sunday, or holiday.

(c) (1) Any bill introduced during the first year of the biennium of the legislative session that has not been passed by the house of origin by January 31 of the second calendar year of the biennium may no longer be acted on by the house. No bill may be passed by either house on or after ~~September 1 of an even-numbered year~~ June 30 of the second year of the biennium except ~~statutes calling elections, statutes providing for tax levies or appropriations for the usual current expenses of the State, and urgency statutes,~~ bills that take effect immediately, and bills passed after being vetoed by the Governor.

(2) No bill may be introduced or considered in the second year of the biennium that is substantially the same and has the same effect as any introduced or amended version of a measure that did not pass the house of origin by January 31 of the second calendar year of the biennium as required in paragraph (1).

(d) (1) The Legislature may not present any bill to the Governor after November 15 of the second calendar year of the biennium of the legislative session. On the first Monday following July 4 of the second year of the biennium, the Legislature shall convene, as part of its regular session, to conduct program oversight and review. The Legislature shall establish an oversight process for evaluating and improving the performance of programs undertaken by the State or by local agencies implementing state-funded programs on behalf of the State based on performance standards set forth in statute and in the biennial Budget Act. Within one year of the effective date of this provision, a review schedule shall be established for all state programs whether managed by a state or local agency implementing state-funded programs on behalf of the State. The schedule shall sequence the review of similar programs so that relationships among program objectives can be identified and reviewed. The review process shall result in recommendations in the form of proposed legislation that improves or terminates programs. Each program shall be reviewed at least once every five years.

(2) The process established for program oversight under paragraph (1) shall also include a review of Community Strategic Action Plans adopted pursuant to Article XI A for the purpose of determining whether any state statutes or regulations that have been identified by the participating local government agencies as state obstacles to improving results should be amended or repealed as requested by the participating local government agencies based on a review of at least three years of experience with the Community Strategic Action Plans. The review shall assess whether the Action Plans have improved the delivery and effectiveness of services in all parts of the community identified in the plan.

(e) The Governor may reduce or eliminate one or more items of appropriation while approving other portions of a bill. The Governor shall append to the bill a statement of the items reduced or eliminated with the reasons for the action. The Governor shall transmit to the house originating the bill a copy of the statement and reasons. Items reduced or eliminated shall be separately reconsidered and may be passed over the Governor's veto in the same manner as bills.

(f) (1) If, following the enactment of the budget bill for the 2004-05 fiscal year or any subsequent fiscal year, the Governor determines that, for that fiscal year, General Fund revenues will decline substantially below the estimate of General Fund revenues upon which the budget bill for that fiscal year, as enacted, was based, or General Fund expenditures will increase substantially above that estimate of General Fund revenues, or both, the Governor may issue a proclamation declaring a fiscal emergency and shall thereupon cause the Legislature to assemble in special session for this purpose. The proclamation shall identify the nature of the fiscal emergency and shall be submitted by the Governor to the Legislature, accompanied by proposed legislation to address the fiscal emergency. In response to the Governor's proclamation, the Legislature may present to the Governor a bill or bills to address the fiscal emergency.

(2) If the Legislature fails to pass and send to the Governor a bill or bills to address the fiscal emergency by the 45th day following the issuance of the proclamation, the Legislature may not act on any other bill, nor may the Legislature adjourn for a joint recess, until that bill or those bills have been passed and sent to the Governor.

(3) A bill addressing the fiscal emergency declared pursuant to this section shall contain a statement to that effect. For purposes of paragraphs (2) and (4), the inclusion of this statement shall be deemed to mean conclusively that the bill addresses the fiscal emergency. A bill addressing the fiscal emergency declared pursuant to this section that contains a statement to that effect, and is passed and sent to the Governor by the 45th day following the issuance of the proclamation declaring the fiscal emergency, shall take effect immediately upon enactment.

(4) (A) If the Legislature has not passed and sent to the Governor a bill or bills to address a fiscal emergency by the 45th day following the issuance of the proclamation declaring the fiscal emergency, the Governor may, by executive order, reduce or eliminate any existing General Fund appropriation for that fiscal year to the extent the appropriation is not otherwise required by this Constitution or by federal law. The total amount of appropriations reduced or eliminated by the Governor shall be limited to the amount necessary to cause General Fund expenditures for the fiscal year in question not to exceed the most recent estimate of General Fund revenues made pursuant to paragraph (1).

(B) If the Legislature is in session, it may, within 20 days after the Governor issues an executive order pursuant to subparagraph (A), override all or part of the executive order by a rollcall vote entered in the journal, two-thirds of the membership of each house concurring. If the Legislature is not in session when the Governor issues the executive order, the Legislature shall have 30 days to reconvene and override all or part of the executive order by resolution by the vote indicated above. An executive order or a part thereof that is not overridden by the Legislature shall take effect the day after the period to override the executive order has expired. Subsequent to the 45th day following the issuance of the proclamation declaring the fiscal emergency, the prohibition set forth in paragraph (2) shall cease to apply when (i) one or more executive orders issued pursuant to this paragraph have taken effect, or (ii) the Legislature has passed and sent to the Governor a bill or bills to address the fiscal emergency.

(C) A bill to restore balance to the budget pursuant to subparagraph (B) may be passed in each house by rollcall vote entered in the journal, a majority of the membership concurring, to take effect immediately upon being signed by the Governor or upon a date specified in the legislation, provided, however, that any bill that imposes a new tax or increases an existing tax must be passed by a two-thirds vote of the members of each house of the Legislature.

SECTION SIX. Section 12 of Article IV of the California Constitution is hereby amended to read:

SEC. 12. (a) (1) Within the first 10 days of each odd-numbered calendar year, the Governor shall submit to the Legislature, with an explanatory message, a budget for the ensuing two fiscal years, containing itemized statements for recommended state expenditures and estimated total state ~~revenues~~ resources available to meet those expenditures. The itemized statement of estimated total state resources available to meet recommended expenditures submitted pursuant to this subdivision shall identify the amount, if any, of those resources that are anticipated to be one-time resources. The two-year budget, which shall include a budget for the budget year and a budget for the succeeding fiscal year, shall be known collectively as the biennial budget. Within the

first 10 days of each even-numbered year, the Governor may submit a supplemental budget to amend or augment the enacted biennial budget.

(b) The biennial budget shall contain all of the following elements to improve performance and accountability:

- (1) An estimate of the total resources available for the expenditures recommended for the budget year and the succeeding fiscal year.
- (2) A projection of anticipated expenditures and anticipated revenues for the three fiscal years following the fiscal year succeeding the budget year.
- (3) A statement of how the budget will promote the purposes of achieving a prosperous economy, quality environment, and community equity, by working to achieve at least the following goals: increasing employment; improving education; decreasing poverty; decreasing crime; and improving health.
- (4) A description of the outcome measures that will be used to assess progress and report results to the public and of the performance standards for state agencies and programs.
- (5) A statement of the outcome measures for each major expenditure of state government for which public resources are proposed to be appropriated in the budget and their relationship to the overall purposes and goals set forth in paragraph (3).
- (6) A statement of how the State will align its expenditure and investment of public resources with that of other government entities that implement state functions and programs on behalf of the State to achieve the purposes and goals set forth in paragraph (3).
- (7) A public report on progress in achieving the purposes and goals set forth in paragraph (3) and an evaluation of the effectiveness in achieving the purposes and goals according to the outcome measures set forth in the preceding year's budget.

(c) If, for the budget year and the succeeding fiscal year, collectively, recommended expenditures exceed estimated revenues, the Governor shall recommend reductions in expenditures or the sources from which the additional revenues should be provided or both. To the extent practical, the recommendations shall include an analysis of the long-term impact that expenditure reductions or additional revenues would have on the state economy. Along with the biennial budget, the Governor shall submit to the Legislature, any legislation required to implement appropriations contained in the biennial budget,

together with a five-year capital infrastructure and strategic growth plan, as specified by statute.

(d) If the Governor's budget proposes to (1) establish a new state program, including a state-mandated local program described in Section 6 of Article XIII B, or a new agency, or expand the scope of an existing state program or agency, the effect of which would, if funded, be a net increase in state costs in excess of twenty-five million dollars (\$25,000,000) in that fiscal year or in any succeeding fiscal year, or (2) reduce a state tax or other source of state revenue, the effect of which will be a net decrease in state revenue in excess of twenty-five million dollars (\$25,000,000) in that fiscal year or any succeeding fiscal year, the budget shall propose offsetting state program reductions or additional revenue, or a combination thereof, in an amount that equals or exceeds the net increase in state costs or net decrease in state revenue. The twenty-five million dollar (\$25,000,000) threshold specified in this subdivision shall annually be adjusted for inflation pursuant to the California Consumer Price Index.

(be) The Governor and the Governor-elect may require a state agency, officer or employee to furnish whatever information is deemed necessary to prepare the biennial budget and any supplemental budget.

(ef) (1) The biennial budget and any supplemental budget shall be accompanied by a budget bill itemizing recommended expenditures for the budget year and the succeeding fiscal year. A supplemental budget bill shall be accompanied by a bill proposing the supplemental budget.

(2) The budget bill and other bills providing for appropriations related to the budget bill or a supplemental budget bill, as submitted by the Governor, shall be introduced immediately in each house by the persons chairing the committees that consider the budget.

(3) On or before May 1 of each year, after the appropriate committees of each house of the Legislature have considered the budget bill, each house shall refer the budget bill to a joint committee of the Legislature, which may include a conference committee, which shall review the budget bill and other bills providing for appropriations related to the budget bill and report its recommendations to each house no later than June 1 of each year. This shall not preclude the referral of any of these bills to policy committees in addition to a joint committee.

~~(3)~~(4) The Legislature shall pass the budget bill and other bills providing for appropriations related to the budget bill by midnight on June 15 of each year. Appropriations made in the budget bill, or in other bills providing for appropriations

related to the budget bill, for the succeeding fiscal year shall not be expended in the budget year.

~~(4)~~(5) Until the budget bill has been enacted, the Legislature shall not send to the Governor for consideration any bill appropriating funds for expenditure during the ~~fiscal budget year or the succeeding fiscal year for which the budget bill is to be enacted~~, except emergency bills recommended by the Governor or appropriations for the salaries and expenses of the Legislature.

~~(d)~~ No bill except the budget bill or the supplemental budget bill may contain more than one item of appropriation, and that for one certain, expressed purpose. Appropriations from the General Fund of the State, except appropriations for the public schools and appropriations in the budget bill, the supplemental budget bill, and in other bills providing for appropriations related to the budget bill, are void unless passed in each house by rollcall vote entered in the journal, two-thirds of the membership concurring.

~~(e)~~ (1) Notwithstanding any other provision of law or of this Constitution, the budget bill, the supplemental budget bill, and other bills providing for appropriations related to the budget bill may be passed in each house by rollcall vote entered in the journal, a majority of the membership concurring, to take effect immediately upon being signed by the Governor or upon a date specified in the legislation. Nothing in this subdivision shall affect the vote requirement for appropriations for the public schools contained in subdivision ~~(d)~~ of this section and in subdivision (b) of Section 8 of this article.

(2) For purposes of this section, “other bills providing for appropriations related to the budget bill or a supplemental budget bill” shall consist only of bills identified as related to the budget in the budget bill or in the supplemental budget bill passed by the Legislature.

(3) For purposes of this section, “budget bill” shall mean the bill or bills containing the budget for the budget year and the succeeding fiscal year.

~~(f)~~ The Legislature may control the submission, approval, and enforcement of budgets and the filing of claims for all state agencies.

~~(g)~~ (1) For the 2004-05 fiscal year, or any subsequent fiscal year, the Legislature ~~may~~ shall not send to the Governor for consideration, nor ~~may~~ shall the Governor sign into law, a budget bill for the budget year or for the succeeding fiscal year that would appropriate from the General Fund, for ~~that each fiscal year of the biennial budget~~, a total amount that, when combined with all appropriations from the General Fund for that fiscal year made as of the date of the budget bill’s passage, and the amount of any General Fund moneys transferred to the Budget Stabilization Account for that fiscal year pursuant

to Section 20 of Article XVI, exceeds General Fund revenues, transfers, and balances available from the prior fiscal year for that fiscal year estimated as of the date of the budget bill's passage. The estimate of General Fund revenues, transfers, and balances shall be set forth in the budget bill passed by the Legislature. The budget bill passed by the Legislature shall also contain a statement of the total General Fund obligations described in this subdivision for each fiscal year of the biennial budget, together with an explanation of the basis for the estimate of General Fund revenues, including an explanation of the amount by which the Legislature projects General Fund revenues for that fiscal year to differ from General Fund revenues for the immediately preceding fiscal year.

(~~h~~k) Notwithstanding any other provision of law or of this Constitution, including subdivision (~~e~~f) of this section, Section 4 of this article, and Sections 4 and 8 of Article III, in any year in which the budget bill is not passed by the Legislature by midnight on June 15, there shall be no appropriation from the current budget or future budget to pay any salary or reimbursement for travel or living expenses for Members of the Legislature during any regular or special session for the period from midnight on June 15 until the day that the budget bill is presented to the Governor. No salary or reimbursement for travel or living expenses forfeited pursuant to this subdivision shall be paid retroactively.

SECTION SEVEN. Article XI A is hereby added to the California Constitution to read:

ARTICLE XI A. COMMUNITY STRATEGIC ACTION PLANS

SEC. 1. (a) Californians expect and require that local government entities publicly explain the purpose of expenditures and whether progress is being made toward their goals. Therefore, in addition to the requirements of any other provision of this Constitution, the adopted budget of each local government entity shall contain all of the following as they apply to the entity's powers and duties:

(1) A statement of how the budget will promote, as applicable to a local government entity's functions, role, and locally-determined priorities, a prosperous economy, quality environment, and community equity, as reflected in the following goals: increasing employment, improving education, decreasing poverty, decreasing crime, improving health, and other community priorities;

(2) A description of the overall outcome measurements that will be used to assess progress in all parts of the community toward the goals established by the local government entity pursuant to paragraph (1);

(3) A statement of the outcome measurement for each major expenditure of government for which public resources are appropriated in the budget and the relationship to the overall goals established by the local government entity pursuant to paragraph (1);

(4) A statement of how the local government entity will align its expenditure and investment of public resources to achieve the goals established by the local government entity pursuant to paragraph (1); and

(5) A public report on progress in achieving the goals established by the local government entity pursuant to paragraph (1) and an evaluation of the effectiveness in achieving the outcomes according to the measurements set forth in the previous year's budget.

(b) Each local government entity shall develop and implement an open and transparent process that encourages the participation of all aspects of the community in the development of its proposed budget, including identifying community priorities pursuant to paragraph (1) of subdivision (a) of this section.

(c) This section shall become operative in the budget year of the local government entity which commences in the year 2014.

(d) The provisions of this section are self-executing and are to be interpreted to apply only to those activities over which local entities exercise authority.

SEC. 2. (a) A county, by action of the board of supervisors, may initiate the development of a Community Strategic Action Plan, hereinafter referred to as the Action Plan. The county shall invite the participation of all other local government entities within the county whose existing functions or services are within the anticipated scope of the Action Plan. Any local government entity within the county may petition the board of supervisors to initiate an Action Plan, to be included in the planning process, or to amend the Action Plan.

(b) The participating local government entities shall draft an Action Plan through an open and transparent process that encourages the participation of all aspects of the community, including neighborhood leaders. The Action Plan shall include the following:

(1) A statement that (A) outlines how the Action Plan will achieve the purposes and goals set forth in paragraphs (1) through (5), inclusive, of subdivision (a) of Section 1 of this article, (B) describes the public services that will be delivered pursuant to the Action Plan and the roles and responsibilities of the participating entities, (C) explains why those services will be delivered more effectively and

efficiently pursuant to the Action Plan, (D) provides for an allocation of resources to support the plan, including funds that may be received from the Performance and Accountability Trust Fund, (E) considers disparities within communities served by the Action Plan, and (F) explains how the Action Plan is consistent with the budgets adopted by the participating local government entities;

(2) The outcomes desired by the participating local government entities and how those outcomes will be measured; and

(3) A method for regularly reporting outcomes to the public and to the State.

(c) (1) The Action Plan shall be submitted to the governing bodies of each of the participating local government entities within the county. To ensure a minimum level of collaboration, the Action Plan must be approved by the county, local government entities providing municipal services pursuant to the Action Plan to at least a majority of the population in the county, and one or more school districts serving at least a majority of the public school pupils in the county.

(2) The approval of the Action Plan, or an amendment to the Action Plan, by a local government entity, including the county, shall require a majority vote of the membership of the governing body of that entity. The Action Plan shall not apply to any local government entity that does not approve the Action Plan as provided in this paragraph.

(d) Once an Action Plan is adopted, a county may enter into contracts that identify and assign the duties and obligations of each of the participating entities, provided that such contracts are necessary for implementation of the Action Plan and are approved by a majority vote of the governing body of each local government entity that is a party to the contract.

(e) Local government entities which have adopted an Action Plan pursuant to this section and that have satisfied the requirements of Section 3 of this article, if applicable, may integrate state or local funds that are allocated to them for the purpose of providing the services identified by the Action Plan in a manner that will advance the goals of the Action Plan.

SEC. 3. If, within 60 days following its receipt of the Action Plan, the agency or department takes no action to disapprove the provisions, the provisions shall be deemed to be operative, with the effect in law that compliance with the provisions shall be deemed compliance with the state regulation or regulations. Any action to disapprove the provision shall include a statement setting forth the reasons for doing so.

(d) This section shall only apply to statutes or regulations that directly govern the administration of a state program that is financed in whole or in part with state funds.

The evaluation shall include a review of the extent to which the Action Plan has achieved the purposes and goals set forth in paragraphs (1) through (5), inclusive, of subdivision (a) of Section 1 of this article, including: improving the outcomes among the participating entities in the delivery and effectiveness of the applicable governmental services; progress toward reducing community disparities; and whether the individuals or community members receiving those services were represented in the development and implementation of the Action Plan.

SEC. 6. (a) The State shall consider how it can help local government entities deliver services more effectively and efficiently through an Action Plan adopted pursuant to Section 2 of this article. Consistent with this goal, the State or any department or agency thereof may enter into contracts with one or more local government entities that are participants in an Action Plan to perform any function that the contracting parties determine can be more efficiently and effectively performed at the local level. Any contract made pursuant to this section shall conform to the Action Plan adopted pursuant to the requirements of Section 2 of this article.
