

PLATINUM LEVEL AWARD WINNER

City of Santa Cruz

Sustainability Best Practices Activities

ILG INSTITUTE FOR LOCAL GOVERNMENTSM
Promoting Good Government at the Local Level

About This Document

This document tracks and shares local agency best practice activities completed and counted as part of a city or county's participation in the climate change and sustainability recognition program, the Beacon Program: Local Leadership toward Solving Climate Change. The Beacon Program is a statewide program recognizing cities and counties that are working to reduce greenhouse gas emissions, save energy and adopt policies and programs that promote sustainability.

The Beacon Program is sponsored by the Institute for Local Government and the Statewide Energy Efficiency Collaborative. The Statewide Energy Efficiency Collaborative (SEEC) provides support to cities and counties to help them reduce greenhouse gas emissions and save energy. SEEC is an alliance between three statewide non-profit organizations and California's four Investor-Owned Utilities. It builds upon the unique resources, expertise and local agency relationships of each partner.

Supporting California local governments

The Beacon Program is funded by California utility customers and administered by Pacific Gas and Electric Company, San Diego Gas and Electric, Company, Southern California Edison and Southern California Gas Company under the auspices of the California Public Utilities Commission.

SPOTLIGHT AWARD

Areas of Accomplishment

		SILVER LEVEL	GOLD LEVEL	PLATINUM LEVEL
	Agency GHG Reductions		15% Reductions	
	Community GHG Reductions			23% Reductions
	Agency Energy Savings		10% Savings	
	Natural Gas Savings			
	Sustainability Best Practice Activities			

Energy Efficiency and Conservation Activity

Level	Energy Efficiency and Conservation Activity	Reported
Silver	1. Set a goal to reduce energy use in municipal building by another 40%. The city completed a municipal facility benchmarking study of 20 city facilities and implemented energy reduction strategies to reduce energy use in them by an additional 10% over the baseline.	2015
Level	Energy Efficiency and Conservation Activities	Reported
Gold	1. Installed an energy accounting system to reduce usage and costs of electricity and natural gas. 2. Wastewater Treatment Facility averages 58% on-site energy generation from digester gas. Outdoor plant lighting was replaced with low energy LEDs, saving 79 tons CO2/year and \$600,000.	2015
Level	Energy Efficiency & Conservation Activities	Reported
Platinum	1. The San Lorenzo Park lights were converted to LED in 2013. The city went from 175 watt bulb usage to 56 watt per light x 9 lights = 1,071 total watt savings. 2. Phase three streetlight LED conversion is complete, converting 1,198 street lights to LED (over half way to the 100% goal!) reducing our energy use by 502,469 kilowatts annually and emissions by 81 tons CO2/ year. 3. Use real-time metering and off-peak scheduling for water and wastewater treatment plants. 4. Virtualized data centers resulting in energy savings. 5. Worked with Central Coast Energy Solutions to offer federal subsidies for energy efficiency upgrades to low income properties via city's rental inspection program.	2015

Energy Efficiency and Conservation Activity

Level	Energy Efficiency & Conservation Activities	Reported
Platinum	6. The city's Green Business Program conducted three special Green Business Challenges resulting in 16 additional businesses becoming certified. Cumulatively, the Cities Green Business Programs will save 2,892 tons annually.	2015

Water & Wastewater Systems Activity

Level	Water & Wastewater Systems Activity	Reported
Silver	1. Converted irrigation in city medians to drip systems reducing the city's water needs.	2015

Level	Water & Wastewater Systems Activities	Reported
Gold	<ol style="list-style-type: none"> 1. Installed waterless urinals in East Zone Parks (4 DeLaveaga, 2 San Lorenzo, 1 Frederick Park) netting an annual water savings of 1,120,000 gallons! 2. Adopted a Water Efficient Landscaping ordinance and standards. 	2015

Level	Water and Wastewater Systems Activities	Reported
Platinum	<ol style="list-style-type: none"> 1. The city requires mandatory water conservation retrofits upon the sale of all properties within service area. 2. City partnered with Ecology Action to replace pre-rinse spray valves at restaurants throughout service area in 2014, saving a total of 7,916 thousand gallons per year. 3. In 2014, the wastewater treatment plant made reclaimed water available for commercial power washing services and sewer line cleaning operations. 4. In 2014, City Parks and Recreation Dept. implemented numerous water conservation efforts to reduced irrigation throughout parks resulting in browning of some areas, installation of highly efficient drip irrigation and computerized irrigation and moisture sensing probes at golf course. 5. In 2014, Cold-In-Place asphalt recycling process used on the city's two most recent major road paving projects. 6. In 2014, the city Storm Water Program expanded its Low Impact Design guidelines for new development and municipal properties. 7. The city installed the Resource Recovery Collections Corporation Yard installed at a water saving cart washer which saves something like 75% the amount of water. 	2015

Green Building Activity

Level	Green Building Activity	Reported
Silver	<ol style="list-style-type: none"> 1. The City of Santa Cruz's Green Building Program was one of the earliest founders of a mandatory Green Building Program nationwide. Adopted green building regulations in 2005. 	2015
Level	Green Building Activity	Reported
Gold	<ol style="list-style-type: none"> 1. In 2014, 21 projects earned the city's Green Building Award level status in 2014, more than doubling the number awarded in 2013. 2. Planning Department and Fire Department began a pilot project to explore ways to streamline the inspection process for the majority of the solar permits on residential buildings. We are hearing positive feedback on the one-call system and significant strides have been made in easing the administrative burden for inspection scheduling for both departments. 	2015
Level	Green Building Activity	Reported
Platinum	<ol style="list-style-type: none"> 1. Green Building has made a few changes at permit tracking software to provide the necessary reports to track solar generation. 2. Mandatory Green Building standards for both commercial and residential construction (Jan., 2007). Adopted a residential green building program in 2008. 3. Implemented a "lot-by-lot" development program to help provide low density affordable housing options for residents. 4. In 2002, Santa Cruz encouraged increased density through changes to the permitting process which allowed for the construction of accessory dwelling units (granny flats). 	2015

Waste Reduction and Recycling Activity

Level	Waste Reduction Activity	Reported
Silver	1. Adopted zero waste as a long-term city goal.	2015

Level	Waste Reduction Activities	Reported
Gold	<p>1. The School Recycling and Waste Reduction Program assists schools with developing and maintaining recycling programs and waste reduction strategies. This free service provides:</p> <ul style="list-style-type: none"> • Assistance in setting up your school recycling program • Classroom presentations and school-wide assemblies • Compost bins, worm bins and accessories for Life Lab garden programs • Dori poles and pennants - the no-waste decoration • Earth Day Santa Cruz • Recycling and trash bins, plus informative and colorful stickers and signs • Santa Cruz Recycles! poster contest • Teacher resource library including DVDs, videos, books and paper-making kits • Tours of the City of Santa Cruz Resource Recovery Facility and Landfill • Trash Talk! - a kids newsletter dedicated to local waste reduction and recycling issues. Trash Talk! is distributed to all 3rd, 4th and 5th grade students in the City of Santa Cruz. <p>2. City Resource Recovery staff is collaborating with UCSC staff to offer UCSC Zero Waste Move-Out events in June to off-campus students to reduce illegal dumping.</p>	2015

Level	Waste Reduction Activities	Reported
Platinum	<ol style="list-style-type: none"> 1. The community center has implemented software to allow residents to make reservations by phone and email reducing the amount of paper used. 2. With strong support from environmentally minded businesses, organizations, and residents, the Santa Cruz City Council voted unanimously to prohibit local shops from sending home their products in single-use plastic bags. 3. City residential refuse customers are provided with a 68-gallon cart for deposit of yard trimmings, grass clippings and other organics. GreenCycle! helps prolong the life of the landfill and keeps valuable organic material from being thrown away. 4. The city has a new urban wood reutilization program – mulch debris on site for landscaping. 5. The city has a new urban milling program producing Benches and bridges use recycled materials and felled trees. 6. The city has ongoing bulk item pickup. 7. The city has a garage sale weekend. 8. The city implements goat grazing for onsite vegetation management at several sites. 9. The city's Resource Recovery Facility began a new carpet diversion program. http://www.cityofsantacruz.com/departments/public-works/resource-recovery-garbage-recycling-sweeping/recycling-and-waste-reduction 	2015

Climate-friendly Purchasing Activity

Level	Climate-Friendly Activity	Reported
Silver	1. Adopted a "Buy Efficiency" resolution to purchase energy efficient products.	2015

Level	Climate-Friendly Activity	Reported
Gold	<ol style="list-style-type: none"> In 2014, the city formalized a policy specifying the process to designate in the budget which capital improvements projects implement the city's climate action plan through direct or indirect green house gas emissions reductions. In 2014, in collaboration with the city manager's office, finance department and sustainability team, the Climate Action Program initiated formalization of a sustainability fund administrative procedural order to capture rebates and energy efficiency savings in a dedicated account to be utilized for carbon reducing projects. 	2015

Renewable Energy and Low-Carbon Fuels Activity

Level	Renewable Energy and Low Carbon Fuels Activity	Reported
Silver	1. Set a goal to increase solar to 2000 residences and 200 businesses by 2016.	2015

Level	Renewable Energy and Low Carbon Fuels Activity	Reported
Gold	<ol style="list-style-type: none"> Installed over 100 kW of solar photovoltaic systems on city facilities since 2000, including solar parking arrays near city hall complex and police station, saving 150 tons CO2/year. The California FIRST PACE solar financing program is now up and running. 	2015

Level	Renewable Energy and Low Carbon Fuels Activity	Reported
Platinum	<ol style="list-style-type: none"> 1. A plug-in electric vehicle charging station has been installed on the Wharf. 2. Of the city's 433 vehicle fleet, 174 (40%) are low-carbon fuel vehicles (B-20 diesel, CNG, LPG, all electric and Hybrid combination). Departments are investigating opportunities to purchase additional electric vehicles. 3. Resource Recovery collections purchased one CNG and one hybrid refuse/recycling collection truck to evaluate operation maintenance and fuel performance. 4. In 2014, the Climate Action Program launched a Go Solar Santa Cruz campaign. 5. In 2014, the Climate Action Program launched the Santa Cruz Energysage Solar Marketplace and promoted heavily to community. www.energysage.com/santacruz 6. In 2014, The Santa Cruz summer CNG trolley service expanded from one to two trolleys. For only 25 cents, tourists and residents can park and ride one of two Downtown/Beach shuttles during the summer season from 11am-9pm. http://santacruzrolley.com/ 7. City has installed a total of 14 public and 6 city fleet electric vehicle charging stations in 10 locations in the Downtown, Beach and east side parking areas. A total of 40 public charging stations are available within Santa Cruz County. 8. City has six Nissan Leaf plug-in electric vehicles for the City fleet and in 2014 deployed six additional all-electric work vehicles into the fleet. 9. Public Works, Monterey Bay Electric Vehicle Alliance and Electric Auto Association hosted the 5th annual Electric Vehicle Exhibit at Earth Day and National Plug-In Day Santa Cruz 2014. 10. The city participated in writing the Monterey Bay Plug-In Electric Vehicles Readiness Plan to promote the rapid adoption of plug-in electric vehicles in the tri-county area, linking with the PEV Plan for the greater Bay Area. 11. In 2014, public Works added 5 additional hybrid waste collection vehicles for a total of 6-hybrids. One CNG side loaders and 2 CNG front loaders are currently on order. The residential waste collection has seen a 45% reduction in fuel use, placing Santa Cruz in the top 10% of 110 national hybrid collection fleet vehicles. 	2015

Efficient Transportation Activity

Level	Efficient Transportation Activity	Reported
Silver	1. City staff completed an employee commute survey that reported 17% of staff carpooled, 9% used public transportation, 31% biked and 16% walked at least once a week during the 2010 calendar year. More than 35 employees presently drive vehicles that get 35 miles per gallon or better.	2015

Level	Efficient Transportation Activity	Reported
Gold	<p>1. In 2014, Arana Gulch multi-use trail was completed, linking the Live Oak community with Santa Cruz via a protected open space trail. http://aranatrailproject.blogspot.com/</p> <p>2. In 2014, new Bike lanes were installed on the uphill section of Western Drive between Mission and Echo (sharrows on the downhill). Green bike Markings on were installed in the Laurel Street repaving project. Public service announcements are airing on the significance of both safety markings. http://www.cityofsantacruz.com/home/showdocument?id=42072</p>	2015

Level	Efficient Transportation Activity	Reported
Platinum	<p>1. In 2014, Westlake Elementary Safe Routes to School upgrades were completed, providing new pedestrian and bike safety infrastructure. http://www.cityofsantacruz.com/Home/Components/News/News/1863/36 http://westlakesaferoutes.blogspot.com/</p> <p>2. In 2014, in collaboration with and mentorship from the City's Climate Action Program, People Power (now Bike Santa Cruz County) worked with UCSC interns to host 10 grant-funded bike commute workshops for businesses to encourage alternative commute options (including one for City staff).</p> <p>3. Public Works completed construction of the San Lorenzo River Trestle Ramp, which is a part of the Monterey Bay Sanctuary Scenic Trail Segment 8, providing safer bike access to the trail.</p> <p>4. The City Council and the Transportation and Public Works Commission approved development of an Active Transportation Plan, which will guide the next investments in active transportation infrastructure.</p>	2015

Land Use and Community Design Activity

Level	Land Use and Community Activity	Reported
Silver	1. The city has several community gardens available for city residents to use their green thumb to grow vegetables for the table, flowers for the home and native plants to attract bugs and birds. Trescony gardens is an organic garden with 54 plots for City of Santa Cruz residents. The Lighthouse gardens is an organic garden with 18 plots for City of Santa Cruz residents.	2015

Level	Land Use and Community Activities	Reported
Gold	<ol style="list-style-type: none"> 1. The City of Santa Cruz Public Works Department is working with Ecology Action on a two year project to create a Complete Streets Plan for Santa Cruz City Schools - researching 10 school sites to take inventory of what conditions exist in order to create visioning plans for the future. 2. In 2014, Public Works partnered with Ecology Action and completed the Santa Cruz City Schools Complete Streets Master Plan to increase the number of students walking and bicycling to school safely. http://www.cityofsantacruz.com/departments/public-works/environmental-programs/transportation-programs 	2015

Level	Land Use and Community Activities	Reported
Gold	<ol style="list-style-type: none"> 1. City allocated staffing to address state low impact development standards 2. Parks and Rec hired a planner to assist with identifying sustainable land use and community design opportunities for implementation 3. Arana Gulch bike trails and open space project completed. 	2015

Open Space and Offsetting Carbon Emission Activity

Level	Open Space Offsetting Carbon Emission Activities	Reported
Silver	1. Established Urban Forest Program and recognized as a Tree City for several years.	2015

Level	Open Space Offsetting Carbon Emission Activities	Reported
Gold	<p>1. The city implements a neighborhood tree program. As city residents remove trees that are in decline, they can select as their mitigation requirement to make a donation to the "tree trust fund." Donations are then used to purchase young trees and materials. These trees are given out to neighborhoods for FREE. Staff helps coordinate with residents the type of tree and the quantity of trees each home will receive.</p> <p>2. In 2014, Santa Cruz Fruit Tree Alliance and City Parks Department partnered to plant a fruit orchard at Riverside Gardens Park. http://www.fruitcruz.org/2015/01/break-ground-riverside-community-orchard/</p>	2015

Level	Open Space Offsetting Carbon Emission Activities	Reported
Platinum	<p>1. Arana Gulch open space preserved and tar plant restoration project completed.</p> <p>2. San Lorenzo River Alliance 2014.</p> <p>3. McCrary Trail link City downtown to UC Santa Cruz completed to facilitate bike and pedestrian transportation modes in Pogonip Park</p>	2015

Promoting Community and Individual Action Activity

Level	Promoting Community and Individual Action Activities	Reported
Silver	<p>1. The Eco-Tour of the city coastline and Wharf has been in place for six months. Out at the beautiful Santa Cruz Municipal Wharf, there are shops and restaurants that are visited every week by locals and tourists alike. The city is committed to helping the environment is apparent as you walk around– the city does everything from recycling to working with research groups to find ways to harness wind power. Here are a few examples:</p> <ul style="list-style-type: none"> • Awarded Green Business Certification for Wharf Headquarters. • Partnered with UCSC to install and monitor an alternative energy test bed on the wharf to measure wind and solar energy potential. • Use power generated by test bed wind generators and solar panel to charge electric maintenance vehicle. • Partnered with UCSC to retrofit the wharf street and pedestrian lighting with LED lamps. • Partnered with UCSC to install an EV charging station on the wharf. • Partnered with UCSC to examine waste to energy power potential on the wharf. • Currently switching out failed HPS and CFL building lighting for LED fixtures as failures occur. • Changed out beach restroom urinals for low flow urinals recommended and funded by SC Water Dept. • Currently replacing an additional maintenance pickup truck with an electric vehicle pickup truck. • Employed Roma Design Group and Moffat and Nichol Engineering to develop a Wharf Master Plan that will identify actionable steps and identify funding sources towards realizing the city’s climate action goals on the wharf. 	2015

Level	Promoting Community and Individual Action Activities	Reported
Gold	<ol style="list-style-type: none"> UCSC just received a \$4.5 million sustainable energy education grant in partnership with universities in Denmark. Adopted a Clean Ocean Business Program. The total number of Green Business certifications increased substantially in 2012: 2011/12 Certified Green Businesses 47 Currently In-Process: 49 Total Certified Businesses in Santa Cruz: 111 Total GHG reductions = 500 tons annually. 	2015

Level	Promoting Community and Individual Action Activities	Reported
Platinum	<ol style="list-style-type: none"> The city parks departments hosts a Street Tree Planting Program which offers free 15 gallon trees for the city right-of-ways in front of residents homes. City hosts and annual Earth Day community event for the whole family ecocruz.org. It consists of a teen recycled fashion show, poster and video contest and other games. In 2014, the Climate Action Team tabled at Earth Day and presented at other environmental events (Green Drinks, college guest lectures, etc.) to inform community of City actions and encourage residents to pledge to take action to reduce emissions 30% by 2020. In 2014, the Climate Action Team conducted 6 public Residential Solar PV Decision Making workshops. In 2014, the City launched a free GreenWharf-centric EcoTour mobile phone app in partnership with app developer, Mobile Ranger. AMBAG Energy Watch Education workshops completed. Electric Vehicle Public Events completed. City Sponsored 2014 Earth Day and Arbor Day. City Schools public meetings completed in support of a Complete Streets Master Plan. Wharf Master Plan and 100 year celebration completed both with sustainability focus. http://www.cityofsantacruz.com/departments/economic-development/development-projects/santa-cruz-wharf-master-plan 	2015
