

## California Safe Routes to School Technical Assistance Resource Center

The California Safe Routes to School Technical Assistance Resource Center (TARC) assists local communities with creating Safe Routes to School (SRTS) programs by providing targeted trainings, technical assistance, and resources to implement safe and successful strategies throughout California.

TARC's purpose is to:

1. Build and support capacity among local SRTS non-infrastructure programs;
2. Conduct activities that complement and inform Caltrans' SRTS infrastructure projects (including assisting jurisdictions that have not yet received funding);
3. Engage low-income schools and communities in establishing SRTS programs; and ultimately,
4. Increase the number of children and their families that can safely walk and bike in and around their neighborhood schools.

### **We're here to help! Contact your Regional Coordinator for:**

1. Individualized technical assistance on
  - identifying appropriate resources for your program audience
  - brainstorming best practices for unique community needs
  - project administration
  - and more!
2. California-specific training and resources
3. No-cost SRTS workshops for low-income schools
4. Regional and statewide peer-sharing and networking opportunities for SRTS non-infrastructure programs

**For more information and resources, please visit [www.CA saferoutestoeschool.org](http://www.CA saferoutestoeschool.org).**

*The Safe Routes to School Technical Assistance Resource Center is a program within California Active Communities, a joint Unit of the University of California, San Francisco and the California Department of Public Health and is supported by a statewide SRTS non-infrastructure award through the California Department of Transportation.*
