

# **Southern California Gas Company (SoCalGas®)**

## **Summary of Energy Efficiency Support and Financing Programs**

Southern California Gas Company (SoCalGas®) offers many programs that help local governments save energy and money. These programs, detailed below, include rebates and incentives for energy-efficient equipment and business processes, zero-percent financing for qualifying energy-efficiency projects, and tools to help monitor your energy usage.

### **Energy Audits**

Visit [www.socalgas.com/business/energysurvey](http://www.socalgas.com/business/energysurvey) to identify energy-saving opportunities for your business. Energy Challenger is a quick online survey designed to help you find ways to improve energy management, reduce your energy costs and raise awareness of energy usage.

### **On-Bill Financing (OBF)**

Get 0% financing on qualifying energy-efficient equipment upgrades. Qualified business, local government and institutional customers can have the monthly loan payments added to their current SoCalGas energy bill.

Who can participate?

Eligible customers must receive a rebate or incentive through a qualified SoCalGas energy-efficiency program and have an active SoCalGas account for the past two years for the location/facility. The account must be in good standing, with no deposit on record, and no disconnect notices in the last twelve months. Project payback based on projected annual energy savings must be ten years or better for Taxpayer-Funded Institutional Customers and five years or better for Non-Institutional Customers.

More information: <http://socalgas.com/business/rebates/onBillFinancing.html>

### **Express Efficiency**

Earn cash rebates when you replace existing equipment with newer, high-efficiency equipment.

Who can participate?

Eligible customers are any business on a valid SoCalGas commercial, industrial or agricultural rate - including cities and counties customers.

Contact information: [express@socalgas.com](mailto:express@socalgas.com) or by phone at 1-800-GAS-2000 (427-2000)  
More information: [www.socalgas.com/business/documents/2008ExpressEfficiencyRebateApplication.pdf](http://www.socalgas.com/business/documents/2008ExpressEfficiencyRebateApplication.pdf)

### **Business Energy Efficiency Program (BEEP)**

Earn cash incentives based on the amount of energy saved when you retrofit existing equipment with new high-efficiency equipment or complete a process improvement for existing equipment.

Who can participate?

Eligible customers are any industrial, commercial, agricultural or government customer who pays the public goods charge
