

BUSINESS RECYCLING

Why Recycle?

State law now requires all businesses generating 4 or more cubic yards of waste per week to recycle.

- Recycling may provide opportunities for your business to save money.
- Recycling helps conserve resources and extends the life of our landfills.

How to Get Started?

- Make sure your business has arranged for recycling services.
- Use the list on the other side of this flyer and post in common area to help employees learn what items can be recycled.
- Separate recyclable items from refuse inside your business.
- Place your recyclable items in outside recycling containers for collection.
