Webinar: Technology, Tools and Techniques to Improve Public Engagement

Most cities and counties make engaging the public a top priority. But there’s always room to enhance these programs. This free webinar will provide ideas on how to use technology to encourage more participation in the public engagement process and examples of cities and counties who are reaching and engaging new audiences.

Share Your Public Engagement Story!
ILG seeks to share best practices, lessons learned and evaluation frameworks with communities across California. This year we plan to share at least five of these stories and would like your help in finding compelling examples. If you know of a recent public engagement activity initiated by a local government in CA, please provide the name of the city, county or community where this took place, the sponsoring local government agency (or other group) involved, the topic of the engagement effort and a contact person (if you have one). Stories can be sent to Public Engagement Program Coordinator Christal Love Lazard at clovelazard@ca-ilg.org.
