Addendum: What This Could Mean for 2031

California is expected to lose 3 to 5 Congressional Districts in 2031

- In LA and OC 21 existing districts today only have the population for 19
 - ▣ The 2025 map adds another district to the area (CD 41)
 - If approved, **22** districts will only have enough population for 19 districts*
 - * Partially offset by 2025 map adding Riverside County population to CD 40
- Plus, in LA and OC the Commission in 2031 will likely pair 4 to 6 incumbents (all Democrats) as they undo the **2025 redistricting**
 - Result: three to six (of the 21) LA/OC Democratic incumbents losing their seats in a Commission-drawn 2031 map
 - (Note: these are not Republican gains)
 - Possible pressure to “suspend” the Commission again in 2031
 - Republicans will likely highly gerrymander Texas again
