Feb 3, 2011 8:30 – 11:30am
2748 E. Olivera Road, Concord, CA

Registration includes:
networking
Presentations
Peer to peer engagement

*snack & refreshment provided

Please Join fellow Contra Costa County leaders and decision makers as we explore the new State legal requirements under CALGreen. Our panelists will discuss their strategies for both residential and commercial projects and answer questions about implementation of their policies. Hear the history, the legislative actions required and case studies. Participate in a robust peer-to-peer discussions between Contra Costa Cities as we discuss potential issues related to compliance and reach codes (Tiers, LEED, or Build it Green). Understand the challenges and benefits to your green building guidance and how they can contribute to your model ordinances and Climate Action Plans! And most importantly how to make a smooth transition in the new year and new Green Building Code.

Moderators:

Lynda Deschambault – Pres./CEO, [Contra Costa County Climate Leaders](#)
Dan Geiger – Exec. Dir., [US Green Building Council, Northern CA Chapter](#)

Panel Participants:

Wes Sullens – Program Manager, [StopWaste.Org](#)
Sullen supports municipal, commercial and multifamily green building programs in Alameda County and advocates for stringent green building requirements. He will be presenting an overview of CALGreen and providing recommendations on setting and implementing effective green building policies in light of CALGreen. **Timothy Cremin** – Attorney, [Meyers Nave](#)
Cremin practices in all areas of environmental and land use law, including CEQA, greenhouse gas and climate change regulations. He will provide a legal perspective of local agency options for adoption, integrating with existing green building ordinances, and options for going beyond CALGreen minimum **Barry Hooper** – Private Sector Green Building Assistant, [City of San Francisco Dept. of Environment](#)
Hooper is responsible for providing technical assistance, outreach, policy analysis and implementation support for San Francisco's efforts to improve the performance of the built environment. Hooper will discuss San Francisco's reach program and how they got there. **William Schock** – Chief Building Official, [City of San Leandro](#)
Schock will share his role in creation of CALGreen, San Leandro's approach and the decisions behind their approach. **Michael Wright** – Director of Community Reuse Planning, [City of Concord](#)
Wright serves as a member of the City of Concord's executive team. As Director of Community Reuse Planning for the Local Reuse Authority (LRA), he oversees the multi-year Concord Naval Weapons Station (CNWS) reuse project. Wright will present the green building aspects of the City of Concord Climate Action Plan (CAP) of the Naval Weapons Station.

Significant time will be allotted for peer to peer discussion and exchange.
