OVERVIEW

The Oxnard Union High School District (OUHSD) was awarded a \$6 million grant to implement Linked Learning and to develop partnerships with community and business leaders.

The Linked Learning academy model:

- Is supported by the National Academy Foundation; and
- Provides the District with the most complete resources, tools, curriculum and professional development available for implementation.

The National Academy Foundation (NAF):

- Is a leader in the movement to prepare young people for college and career success;
- Brings 30 years experience;
- Has a proven educational model which includes industry-focused curricula, work-based learning experiences, and business partner expertise; and
- Provides NAF track certification for job opportunities with over a dozen national business partners.

WHAT IS AN ACADEMY?

An Academy is a small cohort of students taking a sequence of rigorous college-ready courses throughout their four years that integrates academic classes with a specific industry sector.

WHY USE THE ACADEMY MODEL?

The Linked Learning model is a comprehensive four-year program of study that:

- Prepares students for College, Career, and Life;
- Connects education to real-world application by integrating challenging academics with a rigorous curriculum;
- Leads to a full range of postsecondary and career opportunities, keeping all options open after high school; and
- Improves overall student achievement.

Academies produce strong outcomes. Research shows that 98% of seniors who participate in the Academy model graduate.

OUTCOMES 98% OF SENIORS IN ACADEMIES GRADUATE

HOW CAN YOU GET INVOLVED?

You can improve our workforce by becoming involved in Work-Based Learning experiences that offer Career Awareness, Exploration and Preparation.

BENEFITS TO INVOLVEMENT

- Create a diverse talent pipeline
- Lower recruitment and training costs
- Increase interest in your industry
- Improve graduation rates
- Meet a corporate social responsibility
