California Jurisdictions Addressing Climate Change

The Governor's Office of Planning and Research (OPR) has prepared a list of plans and initiatives adopted by California Jurisdictions to address greenhouse gas (GHG) emissions. These plans typically involve setting GHG emission reduction goals and adopting implementation measures to achieve those goals. This information is from OPR's 2012 Annual Planning Survey. Please email State.Clearinghouse@opr.ca.gov if you would like to have your local government climate change plan or program included or updated on this list. As with all OPR publications, you may print all or part of this spreadsheet, or you may manipulate the data to gain a more meaningful understanding. You need not secure permission; just copy it accurately and give credit to OPR. *Updated 6/17/14*.
