### **Agency Greenhouse Gas Reductions**

<b>Base Year</b>	<b>2012</b>
<b>Emissions</b>	<b>165,252 CO<sub>2</sub>e Metric Tons</b>
<b>Re-Inventory Year</b>	<b>2013</b>
<b>Emissions</b>	<b>145,025 CO<sub>2</sub>e Metric Tons</b>
<b>Reduction</b>	<b>12.2%</b>

## About This Document

This document tracks and shares local agency best practice activities completed and counted as part of a city or county's participation in the climate change and sustainability recognition program, the Beacon Award: Local Leadership toward Solving Climate Change. The Beacon Award is a statewide program recognizing cities and counties that are working to reduce greenhouse gas emissions, save energy and adopt policies and programs that promote sustainability.

The Beacon Award is sponsored by the Institute for Local Government and the Statewide Energy Efficiency Collaborative. The Statewide Energy Efficiency Collaborative (SEEC) provides support to cities and counties to help them reduce greenhouse gas emissions and save energy. SEEC is an alliance between three statewide non-profit organizations and California's four Investor-Owned Utilities. It builds upon the unique resources, expertise and local agency relationships of each partner.

The Beacon Program is funded by California utility ratepayers and administered by Pacific Gas and Electric Company, San Diego Gas and Electric, Company, Southern California Edison and Southern California Gas Company under the auspices of the California Public Utilities Commission.
