Pioneering Change

- 2007 — CCVPN began in 13 cities as the “California Cities Gang Prevention Network”
- CORE BELIEF — Stop the Violence, and create vital communities that don’t produce crime
- CORE OPERATIONAL PRINCIPLE — Nothing will change unless all governmental, civic and community based entities make specific commitments along the Prevention, Intervention, Enforcement, and Reentry continuum. Link disconnected prevention efforts to city, county and regional strategies. Maximize isolated efforts through partnerships.
A National Movement

- 2010 — US Department of Justice creates The National Forum on Youth Violence Prevention, modeling it directly on the California Network
- 2014 — The California Network becomes a non-profit organization as the California Cities Violence Prevention Network
